

World-Class Software Solutions

## CUSTOM REAL ESTATE SOFTWARE SOLUTIONS AND SERVICES TO ENHANCE YOUR BUSINESS

### SMART BUILDING SOFTWARE SOLUTIONS

We design data intelligence modules with building automation software to track history and analyze power consumption, as well as develop intuitive user dashboards for building automation management with scheduling capabilities.

### PROPERTY MANAGEMENT SOFTWARE DEVELOPMENT

Move property management into the cloud and gain access to Chetu's powerful custom property management software development services. Interface with existing systems and gain access to and manage property information 24/7. Automate tasks and stay in compliance. Reduce headaches and worry and concentrate on what matters most: ensuring properties are managed well.

### FACILITY MANAGEMENT SOFTWARE DEVELOPMENT

Property and building managers in charge of multiple, multi-faceted facilities need one platform that they can use to manage all their assets, plan spaces, make smart purchases, schedule repairs and upkeep, and improve habitability in any number of ways. Chetu knows how to bring all these components together for a cohesive, user-friendly, facility-specific solution.

### REAL ESTATE SOFTWARE DEVELOPMENT

Our real estate software development solutions encompass the entire real estate industry, providing solutions for real estate management software, property management and HOA management systems, as well as real estate valuation, RETS, IDX, and MLS (Multiple Listing Service) platforms.
