

The DocuSign Agreement Cloud for Property Management and REITs

The DocuSign Agreement Cloud lets property managers and REITs focus on increasing the value of their properties instead of paperwork and manual processes. It is a comprehensive set of applications and integrations to help real estate businesses streamline complex processes, collect rental income faster and increase visibility across the entire company.

eSignature

Securely send, track and sign agreements electronically with responsive signing capabilities for mobile devices.

CLM

Streamline lease generation by pulling tenant information and utilizing a pre-approved clause library; redline and leverage version control on complex commercial leases and property sale agreements; trigger internal workflows and approvals and analyze all agreements across your business in a single contract repository.

Powerforms

Create digital lease applications that new residents can fill out without visiting a leasing office.

Payments

Automatically collect monthly rent, as well as one-time payments such as application fees and security deposits.

Integrations

350+ prebuilt integrations into leading platforms including Microsoft Office, Google Suite, Box, Salesforce and industry solutions such as Intellirent.
