

INTELLIGENCE ON THE RISE

Hepta Systems revolutionizes the way a building works by integrating state-of-the-art technology, masterful innovation and exceptional service. Intelligent buildings operate at the peak of excellence.

BUILDING AUTOMATION

Proactively manage complex control systems in one, intuitive platform, no matter the size of the portfolio.

ENERGY EFFICIENCY

Maximize a building's energy efficiency while lowering the total cost of facility operations.

BUILDING ANALYTICS

Optimize operational improvements and substantial energy savings through the close analysis of building data.

24/7 MONITORING

Automate remote issue response without intervention by occupants and engineers.
