Workplace Experience App

Now more than ever, premier commercial office building owners are reimagining physical spaces to drive value for tenants by increasing employee engagement, satisfaction, and productivity. But in order to know if and how your building is working for your tenants, you need workplace experience data and stronger connections with your tenants. HqO provides this data and facilitates greater connection with our easy-to-use single admin console and custom branded app that integrates all of your existing workplace technology. By making the workplace a human place, HqO helps you better engage tenants and meet your business goals.

Optimizing Workplace Experience - Guaranteed

At the core of our solution is our proprietary feedback, insights, and action loop, which enables you to connect with and better understand your employees. With Analytics, you can listen to what matters most to your employees by using our extensive benchmarking and surveying tools. This enables you to make critical improvements to the workplace experience and develop new iterative strategies to meet your business goals.

**Maximize tenant retention and acquisition**

Bring a level of predictability to leasing

Boost tenant engagement, productivity, and satisfaction

Control CapEx and OpEx costs

One App to Manage the Workplace

Composed of dozens of feature-rich native and integrated modules, the HqO app powers every part of an employee's day – from the palm of their hand. Even better, you can manage workplace programming and access important employee feedback and usage data from a single admin console – no coding required. Choose the capabilities that best meet your organization's needs:
