# mallcomm™

THE **ALL-IN-ONE SOLUTION** FOR **RETAIL PORTFOLIO MANAGEMENT**

From single sites to fully global portfolios, Mallcomm has been designed to make retail management easier

With our multi-device platform, we support the full range of retail centers, from two million+ sq. ft malls to smaller, geographically spread sites.

Flexible and fully customizable, our comprehensive range of functionality and design can be fully tailored to suit the specific needs of your locations.

Coupled with robust integrations tying existing software together, our solution can be implemented seamlessly, making Mallcomm the most efficient and effective management and occupier engagement tool on the market.

Empowering retail property managers with the tools they need to connect, engage & grow their centers

Data Collection and Reporting
Data is one of the most valuable assets - Mallcomm makes it easy to gather and analyze

Safety and Security
Ensuring safety and security for all stakeholders

Operations and Facilities Management
Digitize traditional workflows to streamline everyday tasks

Community Engagement
Merge the physical and digital experience to connect and engage your community.

Software Integration
Seamlessly integrate all your systems together into one centralized hub

10 YEARS OF PROVEN INDUSTRY RESULTS

Mallcomm revolutionizes how retail real estate environments are managed - connecting property managers directly with occupiers, service vendors, suppliers and center visitors through a single platform for a more efficient, engaging and profitable retail operation.

In the last 10 years, our platform has been adopted by over 750 properties covering 400 million sq. ft across 24 countries and has been instrumental in impacting the way retail properties are managed on a global scale.

As industry leaders, we know what works. We also know our platform has the power to positively impact any retail property portfolio.
