

Stealth Monitoring Live Video Surveillance

Who's Watching Your Cameras?

Secure your bottom line

Stealth live monitoring doesn't just help minimize risk and deter property damage at your commercial property. It also controls operating expenses and improves your ability to manage your assets remotely.

- Reduce theft and property damage.
- Improve marketability to increase rents, occupancies, and value.
- Lower business risk.
- Receive full-service consulting with turnkey system design and installation.
- Enjoy triple-tier Total Service from camera and network management to customized instructions and video review.
- Consolidate portfolio security on a single enterprise platform.
- Choose an industry leader with over 15,000 watched cameras nationwide.

PROACTIVE LIVE MONITORING

Stealth Monitoring doesn't wait for crime to happen. Our proactive live video surveillance can watch your perimeter and assets. When our trained operators see suspicious activity they can activate speakers and notify local police.

CHOOSE YOUR PACKAGE

Already have cameras? Get Stealth's industry-acclaimed live monitoring.
Don't have cameras? Stealth designs and installs full camera solutions.
Prefer not to buy upfront? StealthFlex Rentals delivers an affordable turnkey monthly service.

GUARD SAVINGS

Live guards are expensive. Even the best officers can only be in one place at one time. Stealth Monitoring live video surveillance reduces the need for salaries, uniforms and other expenses, while typically delivering more effective results.
