

Transform every square foot of your business

The Challenge

Companies have only scratched the surface in understanding physical space

This results in spaces that are wasteful, costly, inefficient, poorly sustainable, and worse—don't even properly serve the people using them.

The Solution

Investing in Spatial Intelligence

The only way forward is to fully understand physical space and how it's changing.

This level of understanding is called spatial intelligence, and VergeSense is proud to provide spatially intelligent solutions to 29 of the Fortune 500.

Create a competitive advantage with VergeSense

VergeSense is the leading Workplace Analytics Platform that captures real-time data and delivers curated insights to unlock the potential of your real estate.

VERGESENSE VALUE

Timely Insights

Our solutions deliver real-time occupancy and person count data

Tailored to Your Needs

Fully customizable to fit your business goals and space needs

Private By Design

Our sensors transmit data only, no raw or visual data

Powerful Analytics

Cutting-edge AI that learns and gets smarter

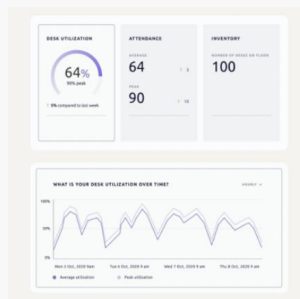

Flexible Integrations

Open API for exporting data to existing workplace management solutions

Real-Time Data

Best-in-class optical sensors provide real-time data

Curated Insights

Analytics dashboard delivers insights and reporting

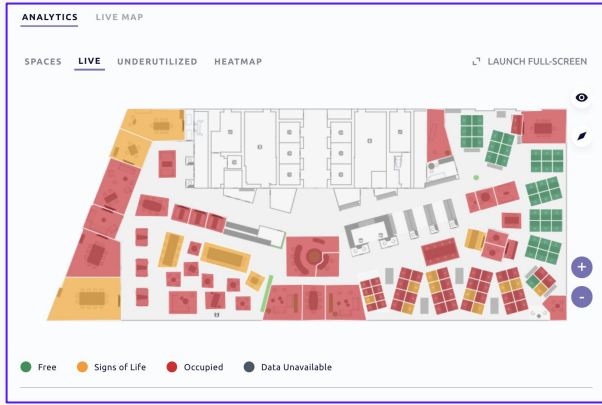

Transformative Action

Gain a competitive advantage by transforming your workplace

The VergeSense Difference

AI-Powered Accuracy

AI-Powered optics sensors that are 100% anonymous and +99% accurate in measuring person count and detecting objects. VergeSense's Signs of Life™ provides a deep understanding of true occupancy in the form of active and passive utilization data.

Actionable Integrations

VergeSense's Open API allows the data captured to be easily integrated with any existing workspace management solutions.

Powerful Insights

Data on the VergeSense Cloud is yours and available to you at any time via the VergeSense Analytics Platform. Occupancy and person-count data collected in real-time can be exported via the VergeSense API.

Enterprise-Level Security & Privacy

Processed data is transmitted to VergeSense's cloud analytics portal through an on-premise network. Devices can be configured to operate within the corporate firewall. All cloud communication uses TLS 1.2 encryption.

Best-in-class AI powered sensors

The best occupancy sensors in the world measure the activity of your workplace with precision and privacy.

- Installs in seconds
- 100% anonymous
- PoE or wireless options
- Fewer sensors required vs. competitors
- Object detection
- No PII, numeric data only
- Secure mesh network
- +97% person counting accuracy

Enterprise class technology and expertise

VergeSense's Workplace Analytics Platform is trusted by enterprises across the globe. Today VergeSense analyzes over 40 million square feet and supports customers across 34 countries, including 29 of the Fortune 500.

VergeSense has integration partnerships with some of the leading workplace technology providers to help customers have the best end-to-end experience that allows employees to feel safe and productive.

Businesses use VergeSense to transform static offices into dynamic workplaces that match today's employee needs and expectations.

VergeSense Testimonials

"Using VergeSense data, we were able to exponentially increase the understanding of how our portfolio was being used by employees. That helped us uncover cost savings."

-Senior Director, Real Estate Portfolio, **Leading Healthcare Company**

\$6.7 M in Real Estate Cost Avoidance

"We are on a mission to completely digitize the real estate management experience. VergeSense data is at the center of that digital transformation."

-Director of Industry and Innovation, **Enterprise Technology Firm**
