

WiredScore

# Setting the global standard for technology in the built world.

750 million sqft committed to certification  
7 million people live and work in buildings committed to certification.

## **Introducing the WiredScore Accredited Professionals Program**

WiredScore's Accredited Professional Program is the official accreditation for external partners who want to enhance their skills and make the world smarter and better-connected.

## **Introducing WiredScore certification for homes and offices**

WiredScore is the global digital connectivity certification system that helps landlords assess, improve, benchmark and promote their commercial and residential buildings.

## **Introducing SmartScore certification**

SmartScore is the smart building certification helping landlords understand, improve and communicate the user functionality and technological foundations of their buildings.
