Harvest the power of Microsoft tailored to real estate by YAVICA

We've built a world-class real estate solution embedded in Microsoft Dynamics 365, so you can run your entire business from one platform.

- Strategic planning
- Asset management
- Marketing
- Sales & letting
- Tenant engagement
- Facility management
- Property management
- Settlements & billing
- Reporting & analytics
- ... and more!

Future-proof your real estate business with a solution open to integration and innovation: Connect to +50.000 ISVs in Microsoft AppSource or build your own app using the no-code Microsoft Power Platform.

Join leading real estate companies around the world.

PowerBI

One dataset, one source of truth, unlimited analytics and reporting with Power BI.

AI

With the next generation of AI, you have a unique opportunity to accelerate innovation. Plug your real estate business into Microsoft Co-Pilot and Azure AI.

Automation

Efficiency is paramount for large companies. Automate repetitive and manual tasks, set up workflows, and generate reports with a click using Microsoft Power Automate.

Mission

We aim to provide the best end-to-end business solution for real estate visionaries.
